SUMMARY

I am an experienced Front End Developer skilled in crafting successful websites tailored to meet customer requirements. Specializing in close collaboration with clients to gather needs, devise plans, and enhance designs for optimal usability and functionality. Proficient in HTML5, CSS3, and JavaScript, with expertise in popular frameworks such as React and Angular.

I'm a self-motivated and flexible professional adept at collaborating with teams to create impactful, cutting-edge websites that captivate customers and drive business outcomes. Thriving in remote work settings, I excel at managing my time effectively. I've successfully delivered numerous projects autonomously and as part of distributed teams. Moreover, my robust communication skills enable seamless collaboration despite geographical distances.

EXPERIENCE

Financial, Forensic Studies & Diagnostic LTD (FFSD), Lagos, Nigeria — Web Developer.

DECEMBER 2023 - TILL DATE

- I utilized React to develop interactive and responsive web applications.
- I employed HTML, CSS, Tailwind CSS, JavaScript, and TypeScript to build and style dynamic websites.
